Ballate Non Pagate

Merini, like Dante, represents the story of the Exodus of the Israelites from Egypt, in its literal and allegorical senses. The forty poems of The Holy Land recall Moses at Mount Sinai, the Israelites' forty years in the desert, and Jesus' fast in the wilderness. For Merini, it seems, the Holy Land is not the Promised Land of Canaan, but the forty years spent getting there, coming to terms with the terrifying atrocities of hell, the mystical ecstasies of paradise, and the "intense pain of plunging back into the banality of daily living." Merini's wandering may be understood as the poet's search for the obscure laws which govern her visions, metamorphoses, and creations.

Lo spettatore Oscar Wilde's only novel tells the story of a man consumed by narcissism and hedonism: Dorian Gray, a beautiful youth who possesses a unique painting of himself that accrues only the marks of age and sin for him, leaving his real face perpetually young, fresh, and innocent. The novel blurs the lines between the Victorian gothic and the fantastic, both celebrating and criticizing the love of life and pleasure that Wilde himself is known for. At the time it was considered so scandalous that Wilde's editor deleted sections without telling Wilde, and yet it still met with enormous backlash and accusations of moral corruption. Thinking German Translation

Il corriere di Firenze giornale edomadario politico, letterario, di belle arti e teatri con appendice umoristica e biografica “The mentally ill suffer unnameable persecutions, no one knows why. They assume the role of the saint in today's society, since it is presumed that they, rarefied by their own madness, do not suffer like everyone else.’ -- Alda Merini. ‘In these pages, everything that is touched, even the most painful theme, is transformed into poetry. Every word is a key that finds organ pipes ready to amplify and sublimate the desperation. It’s like finding one’s self in front of a phenomenon of unconscious lyric power.’ -- Ambrogio Borsani, from the Afterword.

Tempesta

Libri e riviste d'Italia Here is the ultimate book on the worldwide movement of hackers, pranksters, and activists that operates under the non-name Anonymous, by the writer the Huffington Post says “knows all of Anonymous’ deepest, darkest secrets.” Half a dozen years ago, anthropologist Gabriella Coleman set out to study the rise of this global phenomenon just as some of its members were turning to political protest and dangerous disruption (before Anonymous shot to fame as a key player in the battles over WikiLeaks, the Arab Spring, and Occupy Wall Street). She ended up becoming so closely connected to Anonymous that the tricky story of her inside–outside status as Anon confidante, interpreter, and erstwhile mouthpiece forms one of the themes of this witty and entirely engrossing book. The narrative brims with details unearthed from within a notoriously mysterious subculture, whose semi-legendary tricksters—such as Topiary, Iflow, Anachaos, and Sabu—emerge as complex, diverse, politically and culturally sophisticated people. Propelled by years of chats and encounters with a multitude of hackers, including imprisoned activist Jeremy Hammond and the double agent who helped put him away, Hector Monsegur, Hacker, Hoaxer, Whistleblower, Spy is filled with insights into the meaning of digital activism and little understood facets of culture in the Internet age, including the history of “trolling,” the ethics and metaphysics of hacking, and the origins and manifold meanings of “the lulz.”

Niccolò Machiavelli and His Times

Sottsass In the early 1960s Italian design legend Bruno Munari published his visual case studies on shapes: Circle, Square, and, a decade later, Triangle. Using examples from ancient Greece and Egypt, as well as works by Buckminster Fuller, Le Corbusier, and Alvar Aalto, Munari invests the three shapes with specific qualities: the circle relates to the divine, the square signifies safety and enclosure, and the triangle provides a key connective force for designers. One of the great designers of the twentieth century, Munari contributed to the fields of painting, sculpture, design, and photography while teaching throughout his seventy-year career. After World War II he began to focus on book design, creating children's books known for their simplicity and playfulness.

Becoming A Translator “It is a shameful thing to win a war.” The reliably unorthodox Curzio Malaparte’s own service as an Italian liaison officer with the Allies during the invasion of Italy was the basis for this searing and surreal novel, in which the contradictions inherent in any attempt to simultaneously conquer and liberate a people beset the triumphant but ingenuous American forces as they make their way up the peninsula. Malaparte’s account begins in occupied Naples, where veterans of the disbanded and humiliated Italian army beg for work, and ceremonial dinners for high Allied officers or important politicians feature the last remaining sea creatures
in the city’s famous aquarium. He leads the American Fifth Army along the Via Appia Antica into Rome, where the celebrations of a vast, joy-maddened crowd are only temporarily interrupted when one well-wisher slips beneath the tread of a Sherman tank. As the Allied advance continues north to Florence and Milan, the civil war intensifies, provoking in the author equal abhorrence for killing fellow Italians and for the “heroes of tomorrow,” those who will come out of hiding to shout “Long live liberty” as soon as the Germans are chased away. Like Céline, another anarchic satirist and disillusioned veteran of two world wars, Malaparte paints his compatriots as in a fun-house mirror that yet speaks the truth, creating terrifying, grotesque, and often darkly comic scenes that will not soon be forgotten. Unlike the French writer however, he does so in the characteristically sophisticated, lush, yet unsentimental prose that was responsible for his fame as was his surprising political trajectory. The Skin was condemned by the Roman Catholic Church, and placed on the Index Librorum Prohibitorum.

Lungo la vita di Giovanni Pascoli "In order to allow us to listen to our thoughts, someone came up with the idea of inventing words. Someone thought that the sound of the words could in some way represent the wanderings of our thoughts, of some of our thoughts. Someone else got the idea of representing thoughts by making marks, by making them with light, with something you could see. I make marks. What I mean is that I always, and only, draw in order to represent certain thought that pursue me. These thoughts trace out the forms, dimensions, weight, materials, colors and temperatures to use in building the stage onto which I, or we, will drag existence, including - in the theater set - all the furniture, curtains, lamps, and objects in general - you know, vases for flowers, plates for eating, baskets for bread (if there is any) or fruit (if there is any) and so on (Ettore Sottsass, 1997)"--Back cover.

Mastruzzi indaga

Il lampione giornale per tutti

Â Il Â mondo illustrato giornale universale Gino Mastruzzi è un investigatore privato per modo di dire. Sì, di tanto in tanto gli viene affidato un caso da risolvere, ma le sue indagini finiscono sempre con lo scoprire una realtà che non si può, che non si può più, che non si può ancora “risolvere”. È la realtà metropolitana dell’emarginazione e del razzismo, delle sacche di povertà e della malavita dentro la cornice di una città “civile” e opulenta come Bologna. Piuttosto che investigatore, Mastruzzi – burbero, pieno di accliacchi, donchisciottesco – è una sorta di “assistente sociale”. Si butta a pesce dove sente odore di ingiustizia e così finisce con lo smascherare una città fatta anche di arroganza, potere occulto, personaggi intoccabili. Gino Mastruzzi ha molti amici tra vagabondi e senza casa, zingari e immigrati, mendicanti e disoccupati, insieme a loro lotta quotidianamente contro i mulini a vento, non vince mai, tuttavia da ogni nuova impresa sanguinosa esce conservando l’unico bene per lui prezioso: la dignità..
